TIPS AND TRICKS

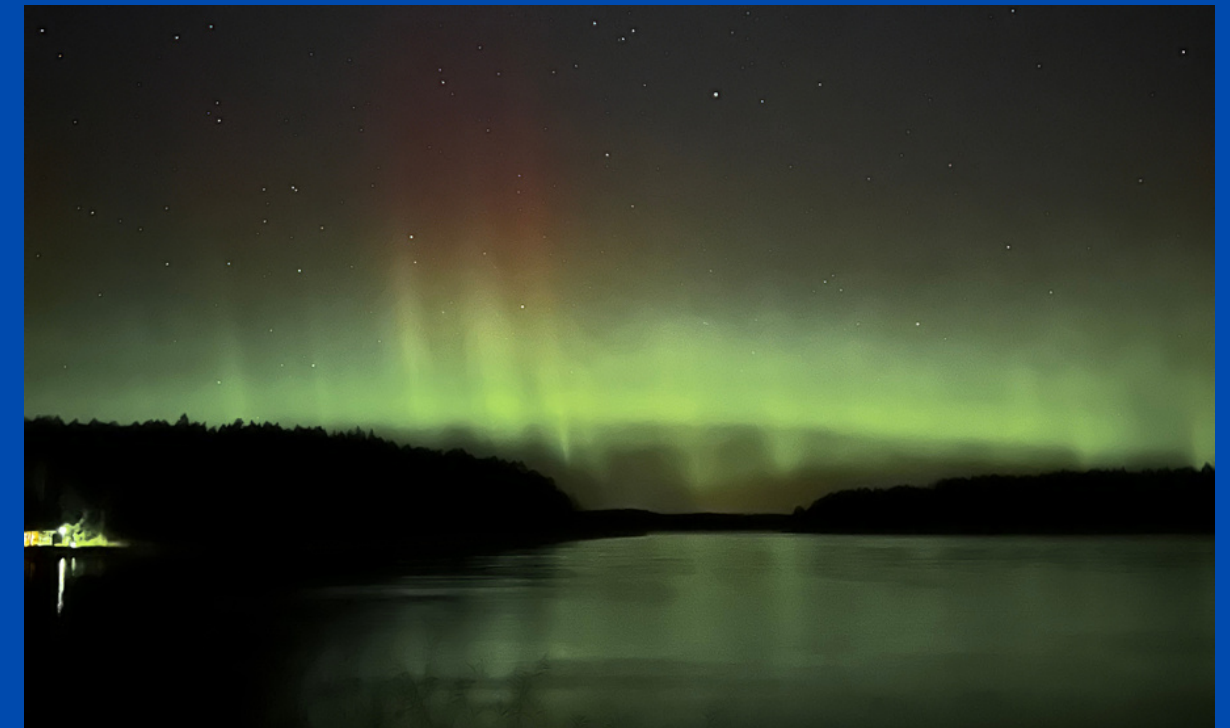

Weather

Finland is very cold, and this is true, but do not be intimidated by this aspect. The perception of cold is different. Fear not!

Relationships

Establishing relationships will not be a problem. There are dozens and dozens of different cultures with whom you will be able to make friends and spend quality time together. Making friends with Finns, on the other hand, is really challenging

Trips

Don't miss the opportunity to discover the unspoiled nature of Finland. Take part in ESN's organized trips. And go hunting for the Northern Lights. If you are lucky, you will also be able to see it from Lappeenranta
